

Ohio Water Withdrawal Amounts During 2011

by
Ohio Department of Natural Resources
Division of Soil and Water Resources

Data for this map comes from the Ohio Department of Natural Resources (ODNR) Water Withdrawal Facility Registration Program, which started in 1990. Section 1521.16 of the Ohio Revised Code requires any owner of a facility, or combination of facilities, with the capacity to withdraw water at a quantity greater than 100,000 gallons per day to register with ODNR, Division of Soil and Water Resources. Each year registrants report how much water was withdrawn at their facilities. For more information about water withdrawal in Ohio, contact 614-265-6739 or visit us on the web at www.dnr.state.oh.us/tabid/4265/Default.aspx

Total Water Withdrawals (Millions of Gallons per Day)

Primary Use

- Ag/Irrigation
- Industry
- Mineral Extraction
- Miscellaneous
- Power
- Public

- Ohio River - Lake Erie Basin Divide
- Major Rivers
- Limited Access Highway
- Highway
- Ohio Counties
- Lakes

Reported water withdrawals in Ohio are grouped into one of six categories: Public (community and non-community water supplies), Agriculture (livestock watering, irrigation, golf course irrigation, nursery and landscaping), Industrial (process and cooling water), Power Generation (nuclear, thermoelectric, hydroelectric), Mineral Extraction (coal, oil, limestone, sand and gravel), and Miscellaneous (construction dewatering, amusement parks, fish hatcheries, etc).
